

Arjun

Backend Engineer | 5+ years experience

Email: test@email.com | Bangalore, India

Professional Summary

Backend Engineer with strong expertise in microservices, API development, and distributed systems.

Core Skills

Java, Spring Boot, Microservices, Redis, Docker, SQL, REST APIs

Key Projects & Contributions

- Designed high-scale payment processing system handling over 1 million daily transactions.
- Optimized backend services reducing latency by 45% through caching and database tuning.
- Built microservices architecture improving system scalability and fault tolerance.

Professional Experience

- Delivered scalable, high-performance systems in production environments.
- Collaborated with cross-functional teams including product, data, and engineering.
- Applied best practices for system design, performance optimization, and monitoring.

Education

Bachelor of Technology in Computer Science
