

Dheeraj

GenAI Engineer | 3+ years experience

Email: test@email.com | Bangalore, India

Professional Summary

GenAI Engineer with expertise in building LLM-powered applications using RAG architectures, prompt engineering, and vector databases. Strong experience in building conversational AI systems.

Core Skills

LangChain, OpenAI API, RAG, FAISS, Python, Azure OpenAI, Prompt Engineering

Key Projects & Contributions

- Built a Retrieval-Augmented Generation (RAG) chatbot leveraging LangChain and FAISS that improved answer accuracy by 45%.
- Developed a document intelligence system capable of querying over 10,000 PDF documents with high semantic relevance.
- Optimized prompt engineering strategies reducing LLM inference cost by 30% while maintaining quality.

Professional Experience

- Delivered scalable, high-performance systems in production environments.
- Collaborated with cross-functional teams including product, data, and engineering.
- Applied best practices for system design, performance optimization, and monitoring.

Education

Bachelor of Technology in Computer Science
