

Ravi

Data Engineer | 5+ years experience

Email: test@email.com | Bangalore, India

Professional Summary

Data Engineer specializing in building large-scale distributed data systems and real-time processing pipelines.

Core Skills

Apache Spark, Kafka, AWS, Airflow, ETL, Data Lakes, Python

Key Projects & Contributions

- Designed and deployed ETL pipelines processing 8TB of data daily with 99% reliability using Spark and Airflow.
- Implemented real-time streaming pipelines using Kafka reducing processing delay by 50%.
- Optimized data warehouse queries improving performance by 35%.

Professional Experience

- Delivered scalable, high-performance systems in production environments.
- Collaborated with cross-functional teams including product, data, and engineering.
- Applied best practices for system design, performance optimization, and monitoring.

Education

Bachelor of Technology in Computer Science
