

Sony

Senior Machine Learning Engineer | 5+ years experience

Email: test@email.com | Bangalore, India

Professional Summary

Experienced Machine Learning Engineer specializing in Computer Vision and NLP, with a strong record of building scalable ML systems deployed in production. Adept at designing deep learning models, optimizing inference pipelines, and integrating ML solutions into real-world applications.

Core Skills

PyTorch, TensorFlow, OpenCV, NLP, MLOps, AWS SageMaker, Docker, Kubernetes

Key Projects & Contributions

- Architected and deployed an enterprise-grade image recognition system using CNNs and transfer learning, improving classification accuracy by 35% and reducing false positives by 20%.
- Designed a large-scale NLP sentiment analysis pipeline processing over 2 million records daily, achieving 92% accuracy using transformer-based models.
- Implemented MLOps pipelines using Docker and Kubernetes, reducing model deployment time by 50%.

Professional Experience

- Delivered scalable, high-performance systems in production environments.
- Collaborated with cross-functional teams including product, data, and engineering.
- Applied best practices for system design, performance optimization, and monitoring.

Education

Bachelor of Technology in Computer Science
